

5011CEM BIG DATA PROGRAMMING PROJECT

EUROPEAN OZONE VISUALISATION INSTALLATION SETUP

Submission Date: 24th April 2020

INSTALLATION SETUP

1. Download MatLab Version R2019b
2. Install MatLab onto your machine, using the recommended installation and ticking Mapping Toolbox as an additional installation extension.
3. Ensure the project folder contains the file CBE.m and 25 .csv files, named 24HR_CBE_01.csv to 24HR_CBE_25.csv
4. If using Windows, modify the CBE.m lines 106 and 136 to use ‘.\’ instead of ‘./’ for the path
5. Ensure the project folder is using the same path as stated in the CBE.m file, if another path is needed, adapt the lines 106 and 136 to match the new directory path.
6. Installation complete – Code should run inside the MatLab IDE
